Specifications

Part number	AS401
Speaker type	Bone conduction transducer
Frequency response	15Hz~15KHz
Sensitivity	101 ± 3dB
Continuous play	12 hours
Standby time	100 days
Charge time	2 hours
Weight	1.38 oz (39g)
Warranty	2 years

Storage and maintenance

- Store the headphones in a cool and dry place. The working temperature should be 0~45°C (32~113°F). Working in cold/hot environments or highly humid areas may reduce the life of the battery.
- After storing the headphones for an extended period, charge the unit before using it again.
- The headphones are sweat resistant, but are NOT waterproof. DO NOT submerge the headphones in water.
- Listening with headphones at a high volume may affect your hearing and may distort the audio.
- When cleaning the headphones, use a soft dry cloth.
- Do not charge your headphones immediately after exercising, as any sweat or moisture inside the charging port could lead to a circuit burning.
